06/15/2022

Dear Parent/Guardian,

This is your first reminder about immunizations that are due for the start of our next school year. All students entering Kindergarten will need their Diap, Polio, MMR, and Varicella vaccination before school starts in the fall. There will be a second reminder letter sent closer to the end of summer. If your child has already received these immunizations, please provide an updated record to me as soon as possible. If your child has not had these immunizations, please get them updated and a record sent to me no later than August 22, 2022. If the records are not updated in a timely manner your child may be unable to attend school until the immunizations are completed. It is a Missouri law that all students attending public school have updated immunizations. The local health department is open from 9-5 every day for immunizations and will make appointments. If you have any questions, please feel free to contact me at 573-779-3515 or you can contact the health department at 573-438-2164. Education is of the utmost importance to us and so is the health of our students. Thank you for your cooperation and promoting the health of our students.

Thank you,

Michelle Province, RN School Nurse
